

## “Atul Tiwari Best Undergraduate Publication Award in Mechanical”

### Department of Mechanical Engineering, NIT Raipur

Alumni of Mechanical Engineering Department has initiated a memorial award in the name of Late Shri Atul Tiwari (2014-18 Mech.) as **Atul Tiwari Best Undergraduate Publication Award**.

- An amount of Rs 5,000/- every year will be awarded (shared equally by the undergraduate authors), as best publication for the period from 2<sup>nd</sup> Dec. to 15<sup>th</sup> Nov. of every year.
- Evaluation of best paper will be based on the decision of Department Level Paper Review Committee and the impact factor of the journal (SCI, SSCI, SCIE, Scopus, Web of Science, etc.)
- This activity is initiated to inspire the students of the department towards research activities and to produce quality research articles.

**Brief Introduction:** Atul Tiwari came from the remote village Parpodi in Bemetara district of Chhattisgarh, he studied in the single teacher school the village had till his middle school. It was his undying will, commitment, and curiosity that he never allowed his background to be a limiting factor in his journey. He was a meritorious student from the very beginning bragging top ranks in the state HSC and SSC examinations. He overcame his limitations in English proficiency while preparing for JEE exams and secured the rank in the top 1 percentile in over 14 lakh students who appeared in JEE Mains 2014 across the nation. He continued to thrive through his years in the Mechanical engineering department at NIT Raipur from 2014-18 where he led the institute's team for the "SAE Baja" event which brought great laurels for the institute.

Atul was truly a great person who had so much potential and virtues to offer but his sudden demise in June 2021, left a void in the lives of many which would be difficult to fill. Atul made an impact on the lives of many as a friend, a peer, a colleague, and a mentor, so in his memory this (scholarship name) is initiated at NIT Raipur as a legacy of a brilliant young person who made the world a better place but left too soon.
