Abhinay, The Dramatics Club of NIT Raipur, came into existence on 2015, with the sole purpose of creating and aiding an environment of drama and related culture in the college.

It provides platform for young and talented artists of the college, specially in the field of drama and acting, cinematography, video making/editing etc.

Open mic session 11.0, was organized by Abhinay The Dramatics Club of NIT Raipur to bid a final adieu to the previous passing batch. As the last breed of artists were leaving the college, it provided a platform for them to express their heart out for one last time and also to promote the budding new industry of where artists could show their creativity.

The performers presented various art forms ranging from poetry, story-telling and stand-up comedy. Each performer was

given a chance to share some of their write ups with the audience. Everyone welcomed these unique stories of the speakers with great cheerfulness. The event gave new or emerging comedians an opportunity to practice and improve, with a view of getting paid work in the future. More experienced comedians used open mics as an opportunity to work out newer material or a new character. It was also an attempt to bring together budding new talents in proximity to experienced artists so that the newer artist could learn from those who were experienced. Few performers from the passed-out batch recalled all the beautiful memories of their college days and cherished those old memories. It was an overwhelming moment seeing all those faces together for the last time. A perfect blend of laughter and satire along with stories of periods of depression and hopelessness. Artists even performed in their own languages as well.
